TECHNICAL SKILLS

- Python
- dbt
- Snowflake
- Airflow
- SQL
- Pandas
- NumPy
- Git
- Linux
- AWS
- Docker
- Kubernetes

TOOLS

- Jupyter Notebook
- Data Studio
- PostgreSQL
- Apache Spark
- Jenkins

LANGUAGES

English — Native
German — Conversational

CERTIFICATIONS

- AWS Certified Data Analytics - Specialty

Declan Fitzgerald

Data Engineer | Data Pipelines and Cloud Infrastructure

PROFESSIONAL PROFILE

Results-driven Data Engineer with 4+ years of experience building and maintaining efficient data pipelines. Proven ability to leverage cloud technologies and automation to optimize data processing and analysis. Passionate about developing scalable solutions that drive data-informed decision making.

WORK EXPERIENCE

Data Engineer • Nordisk Innovations

2023 - Present | London, UK

- Developed and implemented a new data pipeline using dbt and Snowflake, reducing data processing time by 25% and improving data accuracy by 15%.
- Streamlined data ingestion processes by automating data loading from multiple sources into Snowflake, increasing data refresh frequency by 50%.
- Designed and implemented a monitoring system for data pipelines using Airflow, reducing downtime and ensuring data quality.

Junior Data Engineer • EonTech Solutions

2022 - 2023 | Berlin, Germany

- Collaborated with senior engineers to develop and maintain data pipelines for customer analytics, contributing to a 10% increase in customer segmentation accuracy.
- Developed Python scripts for data cleaning and transformation, improving data quality for reporting and analysis.
- Assisted in the migration of existing data infrastructure to the cloud, reducing operational costs by 15%.

EDUCATION

BSc Industrial Engineering

Imperial College London | 2018 - 2022

Graduated with First-Class Honours

MSc Industrial Engineering

Imperial College London | 2022 - 2023

Focused on data analytics and process optimization
