

Sasha Volkov

Full-Stack Engineer | JavaScript & Database Technologies

sasha.volkov@example.org · +47 904 661763 · Stockholm, Sweden · linkedin.com/in/sasha-volkov

Date of birth: 02/04/1995

Driven Full-Stack Engineer with 3 years of experience in developing and maintaining high-performance web applications. Passionate about crafting user-centric interfaces and leveraging efficient backend systems. Proven ability to deliver projects on time and within budget, exceeding performance expectations.

WORK EXPERIENCE

Full-Stack Engineer · Nordic Flow

2023 - Present | Stockholm, Sweden

- Developed and implemented a new user authentication system, reducing login time by 25% and increasing overall system security.
- Optimized database queries, resulting in a 15% improvement in data retrieval speed and a 10% reduction in server load.
- Collaborated with the design team to integrate a responsive design framework, ensuring optimal user experience across all devices.

Junior Full-Stack Developer · FinTech Labs

2023 - 2023 | Stockholm, Sweden

- Developed and maintained key features for a financial management platform, resulting in a 10% increase in user engagement.
- Collaborated with senior developers to implement new APIs, streamlining data integration and improving system efficiency.
- Contributed to the development of unit and integration tests, ensuring code quality and reducing bug occurrences.
