PROFESSIONAL PROFILE

Highly motivated Backend Engineer with 3 years of experience developing and maintaining robust, scalable web applications. Proven ability to deliver high-performance solutions using Java, Spring Boot, and Kafka. Passionate about writing clean, maintainable code and collaborating effectively within agile teams.

WORK EXPERIENCE

Backend Engineer · InnoTech Solutions (Milan, Italy)

2023 - Present | Milan, Italy

- Developed and implemented a new microservice architecture using Spring Boot, resulting in a 20% reduction in average response times.
- Migrated existing monolithic application to a containerized environment (Docker, Kubernetes), increasing deployment efficiency by 50%.
- Utilized Kafka for real-time data streaming, improving data processing capabilities by 30%.
- Collaborated with frontend developers to ensure seamless API integration and a smooth user experience.

Junior Backend Engineer · VeriTech Solutions (Milan, Italy)

2023 | Milan, Italy

- Developed and maintained backend functionalities for a SaaS platform using Java and Spring Boot.
- Implemented RESTful APIs to enable seamless data exchange between frontend and backend systems.
- Collaborated with senior developers to design and implement efficient database queries using PostgreSQL.
- Troubleshooted and resolved technical issues to ensure application stability and performance.
