

Priya Raghunathan

Backend Engineer | Java and Microservices

priya.raghunathan@example.net · +42 446 321736 · Copenhagen, Denmark · linkedin.com/in/priya-raghunathan

Date of birth: 13/07/1995

Highly motivated backend engineer with 3+ years of experience designing, developing, and deploying robust and scalable applications. Proven ability to work independently and collaboratively in fast-paced environments. Passionate about learning new technologies and implementing best practices.

WORK EXPERIENCE

Backend Engineer · Nordiske Tech

2023 - Present | Copenhagen, Denmark

- Developed and maintained core backend services using Java Spring Boot, resulting in a 15% reduction in application latency.
- Implemented a new messaging queue system using Kafka to improve asynchronous communication between microservices, leading to a 20% increase in throughput.
- Migrated existing database schema to PostgreSQL, improving data query performance by 10%.
- Collaborated with frontend developers to integrate new features and functionalities, ensuring seamless user experience.

Junior Backend Developer · Nordic Solutions

2023 - 2024 | Copenhagen, Denmark

- Developed REST APIs using Java and Spring Boot to integrate with various third-party services.
- Contributed to the development of a new customer management system, which resulted in a 5% increase in customer satisfaction.
- Assisted senior developers in debugging and resolving complex technical issues.
- Participated in code reviews and provided constructive feedback to improve code quality.
