Beatriz Fontoura Lima

Data Engineer | Data Pipelines and Cloud Infrastructure

PROFESSIONAL PROFILE

Highly motivated Data Engineer with 6 years of experience designing, developing, and maintaining robust data pipelines. Proven ability to work collaboratively in agile environments and deliver high-quality solutions within tight deadlines. Passionate about leveraging cutting-edge technologies to optimize data workflows and drive data-driven decision making.

WORK EXPERIENCE

Senior Data Engineer • InnoTech Solutions GmbH

2021 - Present | Vienna, Austria

- Designed and implemented a new data pipeline using dbt and Snowflake, resulting in a 20% reduction in data processing time.
- Developed and automated data quality checks using Airflow, ensuring 99.9% data accuracy.
- Collaborated with cross-functional teams to integrate data from multiple sources, streamlining reporting and analysis processes.
- Mentored junior data engineers, fostering a culture of knowledge sharing and continuous improvement.

Data Engineer • DigiFlow Systems AG

2020 - 2021 | Vienna, Austria

- Built and maintained ETL processes using Python and SQL, processing over 500 million data records per day.
- Developed and deployed data visualizations using Tableau, providing actionable insights to stakeholders.
- Streamlined data ingestion processes, reducing latency by 30% and improving data availability.

EDUCATION

Bachelor of Science in Interaction Design

TU Wien | 2016 - 2020
